

The Bistro Lock

Who Cares? Everyone At Clark

Students

- Want little difficulty with food
- Time crunch
- Can result in not being able to eat

Workers

- Don't want to worry about people stealing food
- Redoing orders is bad, especially during busy hours

Administration

- More stolen food means more lost money
- Other security measures can fail

Meet John

- College student
- Loves eating at the Bistro
- Doesn't like waiting for food
- Always seems to be in a rush
- His Problem: He finds his food has been stolen and it needs to be remade, but he needs to go to class and can't wait

What Have Others Done?

Amusement Park Lockers

Identification
Through RFID

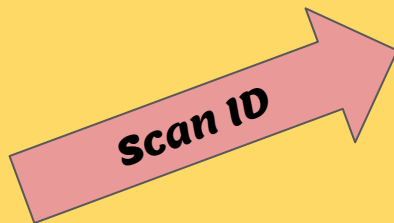

What Will We Do?

Bistro Locker

RFID Scanner

Clark Server

First Version Demo

Final Version Demo

<https://youtu.be/WnnsaEdJecA>

Impact

Benefits:

- Less frustration
- Less money lost from remade food
- Can give accurate data

Considerations:

- Harder for students to get food
- Locker can fill up completely
- Can't pick up for others
- Money and Electricity
